

They are thought to be some of the earliest work in England of the engraver Herman Moll and a few of the plates do have his signature. The set includes twenty unsigned miniatures after Pierre Du Val (see 1660), but with plain rectangular title panels:

*Savoy; Franche Connty; Arabia; China; Tartary; Barbary; Malta; The Molucca Isles; Isles of Japan; The Philippine Islands; Zanguebar; Monomotapa; Tercera, Islands; Canary, Islands; Islands of Cape Verd; Isle of Madagascar; New Mexico; Florida; New Spain; Guiana.*

These are mostly about 115 x 98 mm., though some maps of groups of islands are smaller than the others (see below).

Moore's work is usually bound with his beautifully illustrated *A New systeme of the mathematicks* of the same date.

*A New geography with the maps to each country.* London, Robert Scott, 1681.
